One hundred and twenty acres to all who have served and have received 40 acres.

Eighty acres to all who have served and have received 80 acres.

And if the soldier has deceased without obtaining 160 acres, the same allowances as above is made to his Widow, or if no Widow, to his Minor Children.

Service in the Revolution—in the War of 1812—and in all the Indian Wars, is provided for by said Act.

And all who served the above period in the Militia of the State of Maine in the year 1839, in what is known as the

The subscriber is prepared to receive and prosecute all claims arising under said Act, with promptness and dispatch, and upon reasonable terms. He has many Military Rolls and Copies in his possession, and especially very full ones of the Militia drafted for the Aroostook service in 1839. As his endeavors to commit claims to his charge, gentlemen may rely upon his long and well known experience and success in those of a similar nature. He will, if preferred, Purchase the Land Warrants at fair rates.

Application may be made to him at his Office, or if requested by letter, he will send to claimants Declarations, with suitable directions, which may be executed without the parties leaving their homes.

ARNOLD'S COMBINED

FOOT-STOVE, LANTERN,

....AND....

NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable invention, is now prepared to offer them to the public.

As a FOOT STOVE, it answers an excellent purpose, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in traveling. It is heated by an oil, alcohol, or fluid lamp, the flame of which is protected from every external object.

As a LANTERN, it answers all the usual purposes, and is less likely to be overset, or get broken, and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm, beside giving the light desired, and for cooking in small quantities. For making tea, &c., it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a flat-iron heat in the same length of time.

In fact, the various purposes to which this neat apparatus can be put may be readily conjectured by every one. No further description is required, as no one can misunderstand its general utility. To say any thing more respecting its adaptability to a hundred purposes would just be trifling what our readers can all see it once for themselves.

ASSIGNEES' SALE

—OF—

Valuable Real Estate

—IN—

ZILWAUKEE, SAGINAW CO., MICH.

THE following described property will be disposed of at Public Auction, at the *Merchants' Exchange, in the City of New York*, on THURSDAY, the 28th of February, 1856, at noon, unless previously disposed of at private sale, by order of the Assignees.

First—One large Steam Saw Mill known as the Gang or Mammoth Mill, about 50 by 125, including a gang of 21 saws, 2 muley saws, with siding and edging machines, engine to be about 36 by 72 feet. The whole driven by the most powerful engine on the river.

Second—The Mill known as the Shepherd Mill, of about 42 by 60 feet, consisting of two muley saws and edging machines, this mill is said to be equal to any mill of its size on Shiawassee river. Both of the above mills are in good repair, with large and commodious Wharfs, Lumber Cars, Railways, Booms, in fact all the necessary appointments of first class mills. The above mills were in operation for about three or four months the last season, and gave the utmost satisfaction as regard to the quantity and quality of lumber cut.

Third—About 400 Village Lots in the village of Zilwaukie, in which there is a large Hotel 40 by 60 feet, two stories high, a new Store 40 by 60 feet; Office and Boarding House, and a number of other Dwellings to accommodate the families of those employed in the mills, and the general business wants of the place.

Zilwaukie is situated on the left bank of the Saginaw, 14 miles from its mouth, and five miles below the county seat of Saginaw County, with which it is connected by a good road. The location is considered healthy; less sickness has prevailed in that than any other village on the river, according to the population, since its settlement; it is at the head of navigation for loaded vessels bound from or to the Lakes, and is considered one of the best points for manufacturing Lumber on the river.

Also, about 500 acres of good Farming Land on Cass River, in Tuscola Co.

An Interesting Contribution to Political History.—Gov. Crosby's Letter.—Who were the First Coalitionists?

"A Whig of Thirty Years Standing," recently made a communication to the Skowhegan Clarion, in the course of which he said:

I only wish to state what caused me to dissolve my union with the Whigs, after voting with them for thirty years.

It was nothing more nor less than reading the political articles in The Peoples' Press, while published at Skowhegan by W. E. Hilton, and The Bangor Journal published by the same individual & Co.

He then gives seven very good reasons for his course, the last of which is as follows:

7th, That the 46,076 Whigs who voted in Maine in 1840, were reduced to 10,610 in 1855, by the publication and promulgation of the sentiments of such men as the Editor and Publisher of the Bangor Journal.

Our sensitive neighbors of the Journal, being exceedingly troubled at the publication of this article, could not rest easy without attempting to "explain." The communication, said the editor, "demanded a brief notice."—whereupon, in the issue of the 25th, the editor gets off an article of two columns, composed of a re-hash of all his former diatribes against Messrs Kent, Fessenden, Noah Smith, Benson, and other "black-hearted traitors," as he is wont to term those who, (after Sanborn, Farley & Co. proposed a coalition with the wild-cats,) joined in the Republican movement, in order to secure the triumph of free principles, and put down the dough-faces and bunkers.

It is not our purpose to examine the Journal's article at this time. It contains nothing but the hundred-times repeated assertions of treachery to the Whig party on the part of the Republican Whigs, and the hundred-times repeated claim of ever pure and immaculate Whigism on the part of the present Straight-out leaders. We give but a single extract, as an introduction to something else:

The Whig party of Maine from 1840 to 1853, a period of 13 years, was a unit. The utmost harmony and good feeling characterized all its elections. In 1853 the vote for Gov. Crosby was 37,300, or thereabouts:—and the vote of a few Radical Whigs on the temperance question, for Mr. Morrill, who received 31,000 or more, was *the first indication of disaffection in the Whig ranks* which soon ripened into the heartless indifference and treachery which decimated their numbers and prostrated their power.

It was at the memorable session of the Legislature of 1854, that certain corrupt and rotten members of the Whig party, whose infamy and shame are recorded by their votes in the records of the State of this date, attempted to prevent the re-election of Gov. Crosby, and sell and transfer the whole Whig party to a political adventurer, and he a renegade from the democratic ranks.

With the above preliminary remarks and extracts, we lay before our readers a remarkable letter, written in 1852, by Hon. Wm. G. Crosby, then the Whig candidate for Governor, to Hon. Stephen Stark, Whig Senator elect from Kennebec—a letter which has just seen the light for the first time, in the columns of the New York Tribune. In this letter, our readers will discover who made secret bargainings, tradings and coalitions with wild-cat locofocos, and agreed to "sell and transfer," to vote for and send to the U. S. Senate (for a quid pro quo) the favorite candidate of the wild-cats, Hon. John W. Dana,—also *when* this secret bargain and coalition was formed, and when an *open* coalition with that wing of the democratic party was *first* talked of, by men who are now forsooth, the immaculate *Straight* Whig leaders, and are now denouncing sincere and honest men as *traitors*, because they have merely changed their party name, and united with honest men from other parties, to secure the triumph of *principle* which they have always advocated. It shows when their first disaffection in the Whig ranks" commenced.

But the letter needs few comments. It speaks for itself:

BALTAST, Dec. 18, 1852.

DEAR SIR:—I had the pleasure of an introduction to you some years since, but have never had an opportunity of resuming the brief acquaintance then formed. From the necessity of the case I must now address you somewhat familiarly, and I need not add *confidentially*.

From some communications made to me, I am led to infer that there is a disposition on the part of one of the sections of the Democratic party of this State hardly with their *Whig brethren* in the Legislature, *provided* there can be a *quid pro quo*, in other words, a disposition to give the Whigs the control of the Senate, thereby enabling them to elect their gubernatorial candidate if they *choose* so to do, *provided* the Whig Senators, in the event of a continued division in the Democratic ranks, will return the favor by aiding them in the election of their candidate for the United States Senate.

In the event that such a proposition meets with favor, it is to be carried into effect, as I understand it, on the part of the Democracy, by *permitting* a sufficient number of their members to vote *sub silentio* with the Whigs, to elect some of the Whig constitutional candidates to the Senate—enough to give us a clear majority in that branch. In order to determine how far they must go, it is necessary to know in the fifth place how many Whig Senators are already elected who are *pure and unadulterated*—in other words, and to be plain, who would vote for Crosby rather than Hubbard if they were both returned to the Senate. The importance to them of defeating the election of Hubbard you will fee-hegasifect.

This inquiry would, under ordinary circumstances, be unnecessary, but in view of the fact that many good Whigs have identified the success of H. with that of the "Maine Law," the inquiry is not altogether irrelevant. I have no reason to suppose that I should not receive the votes of all the Senators elect, but it has been suggested that there may be some doubt about Muzzy, of Penobscot, and Tucker, of Kennebec. I do not know, however, that there is cause for the suggestion, but it has occurred to me that you may; and one object I have in addressing you is to ascertain the fact—one which, under the circumstances, may be very important. I shall be very happy to learn from you all you may know respecting the views entertained by Mr. T. upon this point, and also those of other Senators, if there be any within your knowledge in the same category.

How does the proposition strike you? Would or would not the Whig Senators be disposed to further the wishes of the Democrats, before referred to, in return for their "old salt comfiter" in the Gubernatorial

You see at once the nature of the struggle now going on among our Democratic brethren for the ascendancy at the State House. It seems to be pretty generally conceded that the Wild-cat section is positive that *they* can elect a Governor, and as a consequence of this belief they would be prone to throw their chance of success in the Legislature to the Whigs in order to defeat the Democracy; that would have no influence with the majority of the public spoils. To induce them, if any, assistance to the Whigs in the Legislature, if by the defeat of Crosby they increase their chance of success in their own kidney, they may think it worth their while to stand the "hazard of the die." How far their fears are well founded, is a question which we are not called upon to solve.

You will observe that this proposition does not involve, at the outset, an open public coalition, although such may *ultimately be its tendency*. The plan is to bring about the result by *circumstances*, apparently beyond the control of the leaders of either party. I am not much of a political fortune-teller, but I think I can discover the *quo modus* of those who have concocted the plan.

To those who have submitted it to me *with some show of authority*, I have replied that I did not desire to secure my nomination, had can not do so if I would, and that I am in the hands of the Whig party to do with me as they will, not doubting that they will do me justice. I regard it, however, as my duty to undeceive them if there is a probability that, after they had done all they could for us in the election of Senators, the man would be elected Governor whom they wish to defeat, or that they would be disappointed in their expectations of aid from us in return.

You will understand, of course, that this plan, presented by them, is yet in embryo. They do not present it to me. But it is right that I should apprise you and some two or three more of what may happen under certain contingencies, and I have their permission to do so *in strict confidence*. And now, my dear sir, let me invite from you a frank and explicit reply. I have no desires about the matter except those which are secured to the position in which the party have placed me. The views and wishes of the party will be entitled to, and will receive my very respectful consideration. Hoping for an early reply, I am

Very sincerely yours,
W. G. CROSBY.

"STEPHEN STARK, Esq., Waterville."

The Tribune adds, in publishing the above:

We make no comment on this letter—the genuineness of which is undoubted—but simply ask our "Straight Whigs" how they imagine a party animated by such principles, and actuated by such feelings could have possibly been held together? Those "Straight Whigs" of Maine have called another State Convention to nominate a ticket whereby they hope to fool ten thousand Whigs again into voting so as to keep the Douglasites in power, and those wire-workers in office. If looks as though it wouldn't work a second time. There must be some variation in the programme, or nobody will be taken in by it.

The Social Dance given by the Bangor City Cadets, at Norombega Hall, this evening, will be a brilliant and successful affair, according to the indications. A general desire is manifested to give this spirited young corps a good benefit, and at the same time to enjoy a very pleasant occasion. We believe the two may yet be procured at Messrs. Hight & Drew's.

THE STEAMSHIP PACIFIC.—Among the passengers who left Liverpool in the missing steamer, we understand, was Capt. George Jordon, of Thomaston, late of the ship Josephine Harding, of Bath, which ship having been sold recently at Cuxhaven, Capt. Jordon took passage home in the Pacific.

FATAL ACCIDENT.—We understand that Mr. Archibald Holborn was killed yesterday, at Veazie, by falling from the saw mill, on which he was at work, and striking with great violence upon some braces, and upon the ice below. He lived but an hour or two after falling. He leaves a widow and six children.

GENERAL AGENCY FOR MEDICINES. We call attention to the advertisement in this paper, of Mr. C. B. Winter, who has established at 34 Main Street, a General Agency for several valuable and successful medicines. Persons wishing to take travelling agencies may obtain we presume advantageous offers from him. Mr. Walker's agency is connected we believe, with the house of Dwight Chapin of Albany, whose business amounts to some $200,000 per annum, as we see it stated in an Albany paper.

The party leaders have consented to Judge Davis six additional days to prepare his defence —being the *last* time that he asked for; but they refuse to extend the time four days further, which is necessary to enable him to obtain the services of certain eminent counsel whom his enemies do not desire to hear.

In the City Council of Rockland, the former City Clerk was re-elected by a majority of four votes and the Street Commissioner by a majority of two. They are both Republicans.

Prof. Britton closed his course of lectures last evening, at Mechanic's Hall, to a large and appreciative audience. His address on this occasion was an eloquent and finished production, and would have been well received by any intelligent audience, whatever their opinions upon spiritual phenomena might have been. We could but commend his audience with that which he would have found but a short time since, when "a few gathered together" in small upper rooms" to discuss matters interesting to them here and hereafter, in their own way.—Mr. Britton will visit Portland again in June next, as we understand.—*State of Maine.*

Prof. Britton's lectures in this city were not very fully attended, but the ability and spirit with which he treated his subject was highly appreciated even by the opponents of his doctrines. He was moderate and candid, while his lectures were at the same time eloquent and logical. There are but few lecturers of greater ability than Mr. Britton.

A man in South Gardiner has caught seventeen tons of smelts this season, and sent them to New York market, where they retail for 15 cents per pound.

The Providence Journal, speaking of the "furrows" in New Hampshire of the Administration party says, "It is reported that there has been great suffering in New Hampshire from the want of rum; and that the necessary supplies for the purpose of election cost, in some cases, as high as a dollar a pint."

GIRLS SHOULD LEARN TO KISS.—No young lady can be too well posted in anything that will affect the comfort of a family. Whatever position in society she may occupy, she needs a practical knowledge of the duties of a house-keeper. She may be placed in such circumstances that it will be necessary for her to perform much domestic labor; but on this account she needs no knowledge than if she was obliged to do the cooking, stove and all. Indeed, I have often thought it was best for girls to direct others, and not more than to do the drudge work with their own hands. Mothers are frequently so much to blame in their domestic arrangements that they do not like to give up any part of the care to their children. This is a great mistake, for they are often burdened with labor that need relief. Children should be taught to make themselves useful—to assist their parents in every way in their power, and consider it a privilege to do so.

Young people cannot realize the importance of a thorough knowledge of housework, but those who have suffered the inconveniences and mortifications of ignorance in this respect should be early indulged in the privilege of learning to bake and experiment in cooking. Children of various ages like to try their hand in this way. It is often but a trouble to them, but they soon afford; still it is a great advantage.

I know a little girl, who, at nine years old, made a loaf of bread every week, from flour and water. Her mother taught her how much yeast and flour to use, and she became quite expert baker. Whenever she is disposed to try her skill in making simple cake and pastry, she is permitted to do so. She thus, from time to time, is amusing herself, learning an important lesson. Her mother calls her her little housekeeper, and she often permits her to get what is needed for the table. She hangs the keys by her side, and very musical is then singling to herself, as she goes to and fro. I think, before she is out of her teens, upon which she has not yet entered, that she will have some idea how to cook.

Some mothers give their daughters a certain part of house keeping each week by turns, which seems to me a good arrangement, and a most useful part of their education.

Domestic labor is by no means incompatible with the highest degree of refinement and mental culture. Many of the most elegant and accomplished women I have known have looked well to their household duties, and have honored themselves and their husbands by so doing.—*Anon.*

We copy the following almost incredible story of endurance from the Kansas Herald:

A Young Lady Four Days in the Snow—Wonderful Preservation.

IOWA POINT, K. T., Feb. 9, '56.

This has been a day of intense excitement in our quiet town, caused by a young lady of this neighborhood being lost in a snow storm. The facts are as follows:

Miss Martha Perkins, who resides five miles from this place, was on a visit to her brother-in-law who resides here. On Tuesday last, the 5th inst., she started to walk home. It was snowing hard at the time, and continued for two days. The snow was then eighteen inches deep. Her road was mostly over high rolling prairie, the snow beating directly in her face. She pursued her journey with much difficulty until within a mile of home, when she lost her way and rambled about until near sunset, when she took refuge for the night in a deep bushy ravine. There in the deep snow she constructed a very ingenious little house out of the tall weeds that grew near by, and there she spent the first night of exposure, without food to sustain life or fire to warm her, any clothing except her apparel, or shelter from the storm, the little weed house she had erected being the only thing she had to keep her from exposure to the bleak winds and howling blasts.

Early next morning she started out in pursuit of her home, but went directly in a different course. After traveling all day, frequently through snow four feet deep, exhausted and fatigued, her feet frozen, abandoning all idea of ever reaching home, she stopped and again built her a weed hut. In this little frail tenement she abandoned herself to her fate, and it came nigh being her last resting place upon earth. She remained in this situation, and at this last named place from Wednesday until Saturday, about 12 o'clock, when she was found by a party who were in search of her. She had been out four days and four nights, exposed to the merciless storm on the prairies. The weather was intensely cold. During two nights of her exposure, the thermometer ranged from 17 to 20 degrees below zero. She said to those who found her that she never slept during the whole time, believing that if she had gone to sleep she would never wake again.

It is a most miraculous escape from death, and those noble spirits who searched and found her deserve great praise. To think that a young and delicate girl, but over 16 years of age could travel through such a storm for four days, wading often waist deep in snow—to sit out in the open prairie, exposed to the storms of snow and piercing blast of the wintry wind four days and nights, without food, fire, or, several times, a tent, and then live, is hard to believe; but such is the fact beyond doubt, as at least half our citizens who were in search of her can testify. Her feet were badly frozen, but it is believed she will entirely recover, with the loss perhaps of a few of her toes.

A SINGULAR CASE. The Hartford Times relates the following singular case of a person who wished to adopt the State Prison as a home:—

"In the fall of 1853, a young man about twenty-two years of age, named Grady, was sentenced by the New London County Court to hard labor in the Connecticut State Prison, for the crime of stealing. The term of his imprisonment expired last fall, but he begged the privilege of remaining till spring. The Warden kindly permitted him to stay, and found enough for him to do to pay his board. On Monday of this week, the severity of the winter being over, and the spring work about to commence, it was agreed that he should leave the prison and take care of himself, and he was furnished with $3. He came up to the city, but the world seemed dark to him. He felt that he was an outcast, and shrank from intercourse with the world. In the evening he returned to the prison, and begged that he might be kept there during the remainder of his days! The Warden has taken the matter in hand, and is attempting to find a suitable place for him, where he can get an honest living."

WORTH TELLING. Mrs. Polly Beeman, of Birmingham, Conn., is in her 92d year. Her husband, Tracy Beeman, died about three months; he was two years the senior of his wife. They had lived in the same farm-house 69 years. They had a family of nine children, the eldest of whom now is 73, and was married when she was 14. Of the grand children there are now 49, the oldest of whom is 56 years. There are 156 great grand children, and 18 great great grand children. This family comes of good stock and enjoys iron constitutions.

This remarkable woman can walk two hundred and thirty rods, and attended divine service last Thanksgiving table. Their united ages now amount to 7724 years; so that if this family had followed each other consecutively, the time might have been an old lady of 1700 somewhere at the day Adam woke up and ate forbidden fruit with his wife. Our Connecticut old lady intends to take a long journey next week, behind the "iron horse." She ought to have a free ticket.—*Hartford Courant.*

LEGISLATURE OF MAINE.

TUESDAY, March 25.

SENATE.—Bill for the consolidation of certain R. Rs. Companies. Once read and to-morrow assigned.

Mr. Farley, from the select committee to which was referred the application of Judge Davis, reported the following:

Resolved, That agreeably to the request of Woodbury Davis, one of the Justices of the Supreme Judicial Court, the time assigned for the hearing of said Davis in his defense is hereby extended from Friday, the 28th instant, to Friday, the 4th day of April next, at 9 o'clock A. M.

Mr. Shepherd moved to amend the resolve by substituting Tuesday April 8th for Friday April 4th. He remarked that Judge Davis earnestly desired an extension until that day, and had solicited it through a telegraphic dispatch of a later date than that of his written request laid before the Senate yesterday. As the matter was one of vital and lasting importance to Judge Davis, involving nothing less than his personal and professional reputation, he could not think the Senate would refuse to grant the few additional days for which he asked. The extension was necessary in order that Judge Davis might have the services of eminent counsel, and unless it was granted the probability was that he would not be able to avail himself of those services.

Mr. Farley said there existed no disposition to deprive Judge Davis of ample time to prepare for his defence. An extension of one week, asked for in his communication of the 22d inst., is, in the opinion of the committee, sufficient for that purpose.

Mr. Butler was opposed to extending the time of Judge Davis' hearing to the 8th, and thought he might and ought to be ready before that time. He had himself been in favor of a still earlier day, and had thought April 1st a sufficiently long extension.

Mr. Shepherd said it seemed to him that Senators overlooked the true character of the momentous step they were about to take, and were inclined to dispose of this matter lightly. Such action seemed to him improper.

The amendment offered by Mr. Shepherd, was lost, he only voting for it. The resolve, as reported by the committee, was then unanimously adopted.

On motion of Mr. Barnes, bill an act to restrain and regulate the sale of intoxicating liquors, and to prohibit and suppress Drinking Houses and Tippling Shops, was taken from the table, and to-morrow assigned for its further consideration.

Mr Barnes gave notice that he should withdraw an amendment, which he had laid on the table some days since, and that he should move to amend by striking out the 18th, 19th and 20th sections of the bill as reported by the Judiciary Committee.

HOUSE.—Mr Webb of Oldtown, introduced a bill to authorize the town of Oldtown to raise money to purchase fire engines and establish a fire department; referred to the Committee on the Judiciary.

Bill to incorporate the Penobscot Loan Fund Association passed to be engrossed.

Bill to establish a State Normal School was taken up, the amendments of the Senate pending.

Mr. Talbot moved that the House adhere to its vote indefinitely postponing the bill. The motion to adhere prevailed, yeas 82, nays 32.

Mr Barker of Exeter, moved a reconsideration of the vote whereby the House yesterday referred the resolves relating to secret societies, to the committee on the Kansas resolves. He proceeded to give his reasons for the motion.

Mr. Cochran was not surprised at the motion. The resolve introduced by him was mostly taken from the Farewell Address of General Washington. Mr C. said as to his having once belonged to a Know Nothing Lodge, he thought a man deserved some credit who found he had been cheated, and denounced the cheat.

Mr Howes of New Sharon read from the resolves, and asked if the gentleman from Waldoborough intended to apply these terms to Millord Fillmore and Andrew Jackson Donelson. Is not that gentleman committed soul and body to the election of these men?

Mr Cochran—*I am not!*

Mr Howes urged that the Kansas committee has business enough before it, and there are other committees in and about the State House, which would be more appropriate. There was a committee of *twenty*, who held their meetings in the *lower depth* with bolted bars and blinded windows. Mr H. thought this would be a much more proper committee than the Kansas committee to consider these resolves.

Mr Irish of Union, went into a series of discursive remarks, in which he alleged that the Orthodox, Baptists and Methodists in his town all vote the Republican ticket with their priests.

Mr Barker asked of the gentleman or his party had anything to say in favor of any form of religion.

Mr Cochran asked the gentleman from Exeter ever heard of gentlemen in his region who heard the cannon in Bangor on the evening of the last election, and went there and joined the procession, and marched about with it an hour or two before he discovered that Morrill was not elected, and that he was in the wrong box?

Mr Barker said that he heard of such a gentleman for the first time in the *lying* columns of the Bangor Journal, with which he supposed the gentleman from Waldoborough was conversant. Mr B. said he was in Bangor on the evening of the election, and heard the noise and smelled the fumes of liquor, but saw no processions. He heard, however that there was a procession in another part of the city engaged in assaulting a house, inhabited by defenceless women and children.

Mr Brown of Kennebunkport, said the gentleman from Waldoborough was misunderstood, to come here as a whig but it appeared from his remarks that he had become a member of the majority party, generally understood to be *Nebraska Locofocos*.

Mr. Cochran said he would take care of his own political position without the gentleman's aid.

The motion to reconsider was lost, 25 to 65.

Resolve in favor of Mattawamkeag Bridge, passed to be engrossed.

New York papers have a story that Louis Napoleon not only owns a beard and liquor bill at a tavern in Hoboken, but cut his initials, "*L. N.*," in the panel of a door, with a pocket knife, borrowed from the landlord's son, which he forgot to return.

One of the German smashers remarks: "A young girl is a fishing rod, the eyes are the hooks, the smile is the bait, the lover is the gudgeon, and marriage is the butter in which he is fried."

The principal of an academy, in his advertisement, mentioned his female assistant, and the "reputation which she bears;" but this printer left out the "which,"—so the advertisement went forth commending the lady's reputation for teaching *she bears!*

NEBRASKA.—In the Nebraska Territorial Council (Senate) are two Maine men, A. A. Bradford, Lawyer, of Nebraska City, and Henry Bradford, Druggist, of Nebraska City.—There are no natives of Maine in the House.

An old Carolinian once said, "I was born the last day in the week, very late in the day, and have always been behind. I believe it would have been fifty dollars in my pocket if I hadn't been born at all."

"Have you ever broken a horse?" inquired a horse jockey. "No, not exactly," replied Simmons, "but I have backed three or four quarrels."

DISTINGUISHED VISITOR.—Professor Airy, of the Greenwich Hospital; Le Verrier, of France; Argelander, of Germany, and the Struves, of Russia, are among the guests expected at the opening of the Dudley Observatory, at Albany. The proprietors of the Collins, Cunard, Glasgow and other lines of steamboats have tendered them a free passage hither and home.—*New York Journal of Com.*

Dear Sir:—I am happy to be able to certify to the efficiency of Mrs. Winslow's Soothing Syrup, and to the truth of what it is represented to accomplish. Having a child suffering greatly from teething, who could not rest night or day, and he slight by his cries would not permit any of the family to rest the remedy, and when given to children as directed, its effect upon him was like magic. He was soon sweet to sleep, and all pain and nervousness disappeared. We have had no trouble with him since, and the darling proceeds on his way rejoicing. To Holders of LAND WARRANTS!!

John L. Hodsdon,

DOW'S BLOCK, Hammond Street, Bangor, would call the attention of those who may have *LAND WARRANTS* to sell, to the fact that he has orders for large numbers of Land Warrants from parties in the West, who authorize him to pay for the same the highest market value in CASH. Any person having a Warrant may therefore be assured that he can obtain from Mr. H. the most favorable price for it.

To those who desire to

Locate their Warrants,

he would further say that he has skilled and careful agents in the States of

WISCONSIN AND IOWA,

and in the Territory of Minnesota, who will locate any Warrants on the most desirable lands, without advance pay.

TO THE DAILY WHIG AND COURIER

FROM CALIFORNIA.

ARRIVAL OF THE

ILLINOIS.

NEW YORK, March 27.

The steamer Illinois, from Aspinwall, arrived at her dock at 6 o'clock. She brings $1,200,000 in treasure.

The Golden Gate, for Aspinwall, and the Brother Jonathan, for San Francisco, left on the 5th inst. with $140,000 in specie.

The mail and account books of Adams & Co. were recently washed ashore near San Francisco.

The first section, 22 miles, of the Sacramento Valley Railroad is completed.

The California Legislature have passed resolutions deprecating the election of Mr. Banks to the Speakership.

The Indians were committing depredations at the mouth of Rogue River; 24 persons were murdered on the 23d February.

A battle had taken place at Puget's Sound, between a party of friendly Indians and the Clallepats.

The steamer Columbia was to leave San Francisco in a few days, with Gen. Wool and troops for Rogue River.

The Legislature of Oregon has sent a message to President Pierce, asking for the removal of Gen. Wool.

Eleven buildings had been burned at Sonora. Loss $33,000.

A bill has been introduced in the California Legislature, for creating three new States out of the territory included in California.

The markets were generally dull, and money stringent. Receipts of gold dust diminishing. Flour weak; Domestic and Oregon selling at $8 a $9. Rice 15c; lard 19½; butter, choice 36; syrup 90.

There is nothing important from the Isthmus.

Dates from Valparaise Feb 15; Callao 26th. The Chilean war steamer Cagado, from Talcahuano, foundered near Maule, Jan. 13th.—Out of 358 persons on board, only 44 were saved.

San Francisco, March 5. Afflicting accounts have just reached us from Klamath Co. on the North California coast, where about 20 families have been slaughtered by the Indians, and the small coast settlements burned.

The country is in a panic. There are no arms, and express just arrived here for aid reports that the people there are entirely defenceless and with no means of escape. Preparations are on foot for their relief.

Advices from Oregon and Washington Territories are to 25th ult. At Rogue River, the Indians have resumed hostilities, and the little settlement of Wallee at the mouth of the river, had been burned. At Umka Creek, seven of the inhabitants had been killed, and the place is depopulated. Among the victims was the well known trapper and mountain guide, Ben. Wright, and the late sub Indian Agent for Southern Oregon.

A memorial has been adopted by the Oregon Assembly, for the removal of Gen Wool, for alleged inactivity in the present war, and for refusing to send troops to the relief of the volunteers in the field.

The 12th Infantry, under Col. Wright, was still in winter quarters at Fort Vancouver.

No important fights or skirmishes have occurred during the last fortnight.

Ship Addison, of Boston, Capt Woods, from Valparaiso for San Blas, was seized, about the 20th Dec 1, off Tres Maris Islands, by a Mexican war schooner. Capt W. was taken on board the schr and placed under a guard of 26 soldiers. When the crew of the ship returned on board, the commander of the schooner took charge of the Adeline and brought her into San Blas, where she laid until Jan 20. During this time they sent officers on board, and took out the entire cargo, and also nearly all the wearing apparel of the captain, mate and crew, and then hauled her into the inner harbor.

Capt. Woods strongly protested against this high-handed outrage, but all to no purpose. He then left the vessel and went to Mazatlan, where he still remained. The cargo of the Adeline was shipped at Valparaiso, by Meikle & Coon, merchants of that place. The cargo was on board, and remained at San Blas. The mate and a portion of the crew came passengers in the schr. Galatea. The reason given by the authorities for seizing the vessel was that she took her for a smuggler. The ship at the time was 73 miles from any port on the Mexican coast.

Congressional.

WASHINGTON, 27th.

In the Senate, this morning, the matters connected with the action of the Naval Board were made the special order for Monday.

Mr Hunter addressed the Senate on the subject of Kansas, taking ground strongly against Mr Davis's report.

Collamer, Seward and Sewand will speak in succession on the Kansas question.

In the House, the Committee on Foreign Relations were instructed to inquire into the expediency of modifying the act for remodeling the diplomatic and consular system.

The consideration of the bill defining rights of voters, and the duties of Commissioners of Elections in Washington was resumed. The friends and opposers of Humphrey Marshall's amendment engaged in a parliamentary struggle involving many motions and yea and nay votes. The amendment requires foreigners, in addition to general qualifications, to produce their certificates of naturalization one year before voting.

Mr Cobb of Ga. at 5 o'clock moved that the sergeant-at-arms summon absentees and compel attendance.

Mr. Harlan said that he had never hitherto desired to discuss the question of slavery, believing such agitation mischievous and fraught with danger to the perpetuity of the institutions of the country. Others differed from him in this opinion, and among them the President, who, without awaiting for the organization of the House, sent to Congress two voluminous messages, reviewing the whole subject, judicially, politically and historically. It would therefore be disrespectful to the President and to those who represent his views in the Senate, to ignore his favorite theme. Mr. Harlan then entered into an examination of Mr. Douglas' Kansas report, concluding by declaring the representations of historical facts partial, perverted and highly colored. He had no doubt that bodies of armed men entered Kansas for the express purpose of controlling the election; appeal to him favoring said cause to be made and false and forged, and other ways of deceiving the

Crystalotype Portraits.

DAGUERREOTYPES can be accurately copied by the new Photographic process, enlarged to any required size, and beautifully colored in Oil, Water, or Pastel. Portraits are obtained from the life by this process, requiring no longer sitting than for a common daguerreotype; thus avoiding the serious inconvenience and fatigue of long sittings. Glass daguerreotypes, a new article of unsurpassed richness and durability, are now, for the first time in Bangor, offered to the public. Their great brilliancy and perspicuity renders them peculiarly suitable for Pins, Rings, &c. The Public are invited to call and examine specimens at HARDY'S Portrait Gallery, near Main-street, a short distance below the Bangor House.

A MARVELLOUS REMEDY For a Marvellous Age!!

HOLLOWAY'S OINTMENT!!

The Grand External Remedy.

By the aid of a microscope we see millions of little openings on the surface of our bodies.—Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, Disorders of the Liver, affections of the Heart, inflammation of the Lungs, Asthmas, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes through bone or meat of any thickness.—This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

Erysipelas, Salt Rheum, and Scorbutic Humors.

No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume, as this Ointment. No case of Salt Rheum, Scurvy, Sore Head, Scrofula, or Erysipelas, can long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

Sore Legs, Sore Breasts, Wounds and Ulcers.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumors. Professor Holloway has, by command of the Allied Governments, despatched to the hospitals of the East, large shipments of this Ointment, to be used under the direction of the Medical Staff, in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years' standing.

Piles and Fistulas.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Piles	Sprains
Burns,	Rheumatism	Scalds
Chapped Hands	Salt Rheum	Swelled Glands
Chilblains	Skin Diseases	Stiff Joints
Fistulas	Sore Legs	Ulcers
Gout	Sore Breasts	Venereal Sores
Lumbago	Sore Heads	Wounds of all kinds,
Mercurial Eruptions	Sore Throats	
	Sores of all kinds	

*Sold at the Manufactories of Professor HOLLOWAY, 80 Maiden Lane, New York, and 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in Pots, at 25 cts, 62½ cents, and $1 each.

There is a considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each Pot.

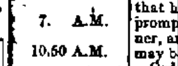
New City Coach.



The subscriber is happy to inform his friends and the public that he has procured, and will this day commence running, for their accommodation, one of the best and most convenient Hackney Coaches ever bro't into this city, with an elegant team of horses; and that he will hold himself in readiness to execute promptly, faithfully, and in the most careful manner, any commands in that line with which he may be favored.

N. B. Select parties or families taken to and from Mt. Hope by leaving their orders on my books at any of the above places. A. MATHEAS.

Bangor, May 10, 1855.

Hope springs Exulting from its Use, while Doubts fleeing away give place to Conviction most triumphant.

BE kind enough, Reader, to give your attention one moment, and you will learn what

C. A. Richards' Abbott Bitters
ARE GOOD FOR.

They have been made and sold 40 years—8 years by the present proprietor, and not this great truth—he has facts in his possession, showing that they *have cured and helped thousands, yea thousands of cases of*

Nervous Debility and Derangement of the Digestive Functions, Depression of Mind and Spirits, Oppression after Eating, Acid Stomach, Sick Headache, Costiveness, Jaundice, Piles, Heartburn, Flatulency, Female Obstructions, Dizziness, Sickness at the Stomach, Water Brash, Loss of Appetite, Pain in the Side, and

Torpor of the Liver and Bowels.

Reader! you are appealed to earnestly. Don't say "if I only could believe it to be true, I have some of the above complaints and I would take the medicine at once if I could only have confidence." IT IS TRUE—it is an honest truth, if ever there was one spoken. Come then, if your mind is irritable, discontented, and gloomy,—if you have severe Colic Pains after eating your food—if your body begins to waste, or your strength to fail you—if your countenance is haggard and sallow aspect—if you have a difficulty in lying on your left side—if your skin is dry and shriveled—if you have an appetite weak and variable, and perhaps entirely destroyed—if your whole system is languid, especially during the process of digestion—if you have a constant uneasy feeling in the stomach—why, you have only a fit of INDIGESTION! and these great Bitters are made to cure Indigestion, and they will do it, too, with all its attendant ills; and while at it it gently stimulates the Stomach, cleansing and removing these troublesome agents,

IT ACTS UPON THE SKIN,

Removing MORBID or VITIATED HUMORS, beautifying the face, kindling life and energy in your entire frame; then, Reader, the world no longer look dark and gloomy. Longer will your dearest hopes be banished and thrust aside, but with

Health and Strength

You will go forth into the world, to say with thousands of others, *C. A. Richards' Abbott Bitters* have done wonders for me.

The genuine have C. A. RICHARDS' signature, and are sold every where.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements whereby, on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty, as paid back by others,*) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after the rejection

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of the claims of any patent furnished for *one dollar.* Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents,*

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

[From the present Commissioner.]

"AUGUST, 17, 1855.—During the time I have held the office of Commissioner of Patents R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice, of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MASON,
Commissioner of Patents.

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing.

PREPARED ONLY BY
REV. WALTER CLARKE,
Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged; and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep, who for weeks have been deprived of that blessing.

Sold in trial bottles, 25 cents, and large bottles, each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel A. [illegible], Esq. of Bowdoinham, Me.

"To Rev. Walter Clark. Dear Sir:—[illegible] Mixture which I bought of you at [illegible] desired effect on my wife. She had been [illegible] with a cough for two years—that bottle entirely relieved it.

From Rev. Jesse Hoyt, Lewiston Falls.

BRO. CLARKE—Every bottle of the Universal Cough Mixture which you left with me, is sold—and I have several applications for more. As far as I can learn, all have been perfectly satisfied with the medicine. One man, who had a cough of long standing, attended with tightness of the chest and shortness of breath, so that he was laid aside from business, purchased one large bottle, and before he had taken one third of it, was perfectly cured, and has had no cough since. He says it is the best medicine in the world, and cannot be recommended too highly.

JESSE HAYES.

From Mr. Fletcher Chick, agent for North Dixmont, Maine.

DEAR SIR—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had coughs of a year's standing, and others who have been doctored six months without receiving any benefit, have been speedily cured by the Universal Cough Mixture.

From Mrs. Hubbard, Thorndike, Me.
FEBRUARY 1, 1854.

To Rev. Walter Clark. Dear Sir—This certifies that I have used one bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs. I had previously taken several kinds of medicine, and had been under the care of several physicians, without obtaining the least relief; happily your Universal Cough Mixture was recommended to me. I procured a bottle, which I began to take according to directions on the label, by which in a few days I was entirely cured.

MARGARET P. HUBBARD.

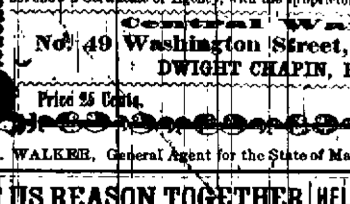
LET US REASON TOGETHER



HOLLOWAY'S PILLS.
WHY ARE WE SICK?

IT has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes and constitutions. Professor Holloway personally superintends the manufacture of his medicines in the United States, and offers them to a free and enlightened people as the best remedy the world ever saw for the removal of disease.

These Pills Purify the Blood.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

Dyspepsia & Liver Complaint.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however much deranged, and when all other means have failed.

General Debility. Ill Health.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

Female Complaints.

No Female, young or old should be without this celebrated medicine. It corrects and regulates the monthly courses, at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint—consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:

Asthma	Dropsy	Inward	Weakness
Bowel Complaints	Debility	Lowness of Spirits	
Coughs	Fever and Ague	Piles	
Colds	Female Complaints	Stone and Gravel	
Chest Diseases	Headaches	Secondary Symptoms	
Costiveness	Indigestion	Venereal Affections	
Dyspepsia	Influenza	Worms of all kinds	
Diarrhoea	Inflammation

HELMBOLD'S
HIGHLY CONCENTRATED
Compound Fluid Extract Sarsaparilla,
—FOR—

Purifying the Blood, removing all diseases arising from Excess of Mercury, exposure and imprudence in life, chronic constitutional disease arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all scaly Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed; whether in town, country, hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends. Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation, and the employment of different menstrua in successive operation to take up the extractive matters, and, in consequence, are most frequently improperly made, and not unfrequently much impaired, if not rendered totally inert, by the injudicious and unskillful management of those unacquainted with pharmaceutical preparations. It is, therefore, of the highest consideration and importance to the public, and to the faculty, that there should be standard preparations of uniform strength and possessing the most advantages. To effect this, and obviate the evil alluded to, I have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. Two table spoonfulls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle fully equals in strength one gallon of Syrup Sarsaparilla or decoction, as usually made.

—PRICES—

Fluid Extract Buchu, $1 per bottle, or 6 for $5

Certificates of cures and recommendations from distinguished professors and physicians, will accompany each preparation. Prepared and sold by

The British Periodicals.
PREMIUMS
TO NEW SUBSCRIBERS

L. SCOTT & CO., New York, continue to publish the following leading British Periodicals, viz:

1
THE LONDON QUARTERLY (Conservative)
2
THE EDINBURG REVIEW (Whig).
3
THE NORTH BRITISH REVIEW (Free Church)
4
THE WESTMINSTER REVIEW (Liberal)
5
BLACKWOOD'S EDINBURG MAGAZINE (Tory)

THE great and important events—Religious, Political, Military—now agitating the nations of the Old World, give to these publications an interest and value they never before possessed. They occupy a middle ground between the hastily written news items, crude speculations, and flying rumors of the newspaper and the ponderous Tome of the historian, written long after the living interest in the facts he records shall have passed away. The progress of the War in the East occupies a large space in their pages. Every movement is closely criticised, whether of friend or foe, and all short-comings fearlessly pointed out. The letters from the Crimea and the Baltic in Blackwood's Magazine, from two of its most popular contributors, give a more intelligible and reliable account of the movements of the belligerents than is elsewhere be found.

These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory, and Radical—but politics forms only one feature of their character. As Organs of the most profound writers on Science, Literature, Morality and Religion, they stand, as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.
